

THE LABOR COALITION
Midstate Central Labor Council AFL-CIO
Central Labor Council Network Proposal
(609) 217 5670

Purpose:

The purpose of "networking" Central Labor Councils in Central and South-Central New York is to share resources between labor councils; primarily, the hiring of a staff person to coordinate regional labor activities and collectively pursue the AFL-CIO "Union Cities" goals: (1) Organizing to Change, Changing to Organize (2) Mobilizing Against Anti-Union Employers (3) Building Political Power and Community Coalitions (4) Promoting Economic Growth, Protecting Our Communities (5) Educating Union Members in Pocketbook Economics (6) Generating Support for the Right to Organize (7) Making Sure Our Leadership Mirrors Faces of Our Membership (8) Encouraging All Local Unions to Increase Their Membership.

Recognizing that small labor council do not have the staffing resources to coordinate area labor activities, a "network" collectively would provide the necessary staff resources to build the solidarity and effectiveness of each member council while maintaining the individuality and leadership autonomy of each council.

Shared Staff Responsibilities:

Solidarity/Mobilization

Build a database of local unions, representatives and activists; strategic planning of labor activities; monitoring local/regional labor related issues; notification and mobilization of activists for labor activities. Collectivized support of contract campaigns including demonstrations, rallies, picketing and handbilling.

Organizing/ Increasing Membership

Work with member locals to consolidate organizing efforts throughout the region. Provide organizing services including education and mobilization efforts for internal and external drives. Target non-union establishments and use of "collective" contracts.

Political Action

Monitor local/regional/national labor issues, the voting records of elected officials, candidate endorsement and distribute the information to member locals. Provide a clearinghouse for political action resources and campaigns.

Education

Assess the educational needs of member councils and locals; acquire, develop and provide the necessary educational seminars using local and regional sources. Develop a database of local trainers.

Health and Safety

Education of member unions in Occupational Health and Safety issues, including outreach programs to the non-union environment. Develop/maintain a database of health and safety related programs.

THE LABOR COALITION

Midstate Central Labor Council AFL-CIO

Information and Referral

Provide information and direction on labor related issues utilizing local and regional resources.

Network Program Commitment

Information commitment

Each council would be responsible for providing the initial information for database construction including member locals, representatives and activists. Provide available information on community resources, political action issues and elected officials/candidates.

Financial commitment

Provide a portion of a staff members salary and benefits. A proposal to the ^{National} State AFL-CIO seeks additional funding for this position for a pilot period of three years, reducing initial costs to the councils.

Education commitment

Assist in the assessment of educational needs of local unions.

Network Implementation Timeline

The tremendous potential of a "network" of shared resources calls for a vigorous effort to implement this proposal. The following is a proposed timeline for implementation:

Oct. - Nov. 1997	Preliminary proposal and amendments
Nov. - Dec. 1997	CLC decisions on proposal; Finalize proposal
Jan. - Feb. 1998	Implement "network"
