

STUDENT INTERNS

The Coalition is making a big effort to obtain some student interns from Cornell's Industrial Labor Relations school for this summer and next fall. They will be available for the Coalition and your local. If you have any reserach, organizing, or legislative projects that need a volunteer, contact Tom Joyce (272-0506) or Al Davidoff (272-4108).

PLANT CLOSINGS BILL

The mayor's committee comprised of 3 representatives from labor and 3 from business with a resource person for each group met on March 10. They heard a report from Steve Jackson, our resource person, who had researched the effects of similar legislation around the country. It was overwhelmingly positive and helped to debunk the major arguements of the business community. The next meeting is April 7. The Coalition hopes that the committee will wind down shortly afterwards and that the legislation will go to Common Council.

We will have a brochure on the bill available soon. Let us know how many you can take to distirbute in your workplace.

LABOR COALITION NEWSPAPER

The deadline for The Working Press is April 11. The title is still temporary so any suggestions you have will be appreciated. Short articles from your local will be accepted before the 11th. We expect to print 5000 copies by April 21. We will be calling on you to help distribute The Working Press.

Please be in touch if we can be helpful in any other way.
